ABOUT ICAR-CMFRI

The ICAR–Central Marine Fisheries Research Institute (ICAR–CMFRI), Kochi is India's premier research institute in marine capture fisheries and allied areas. Established in 1947, the institute undertakes research, assessment, and advisory services for sustainable management of marine living resources and their ecosystems. ICAR–CMFRI plays a pivotal role in advancing the science of fisheries, supporting livelihoods of marine-dependent communities and promoting responsible use of oceans.
